Miss Sincials declared her sister cloped and was married when she waonly sixteen years old. Soon afterward she said. Mrs. Gryson acquired the frinking habit and frequently came to Miss Sinciair's home in Flushing in an ntoxicated condition. She added that Mrs. Gryson used to carry a bottle of whiskey in her stocking.

"How do you know that?" was asked. "Because on one occasion the bottle a thousand pieces," replied Miss Sinclair.

"How much whiskey have you ceet Mrs. Gryson drink at one time? She would pour the whiskey into tumbler and drink it right down."

"A whole tumblerful?" "Yes-about a pint at a time; she would drink 't right down." One of the immediate causes that prompted the inquiry into Mrs. Gryson's mental condition was the discovery recently that she had borrowed \$700 from money lenders, and had made two deeds to property she owned worth \$50,000,

John B. McDonald secured the original subway contract because he was the lowest bidder. He was able to be the lowest bidder because his "political arrangements" were "\$5,000,000 cheaper" than those of his competitor.

What were these "political arrangements?" What are the present "arrangements" that are throttling the city and thwarting the will of the People as expressed at the last election? Somebody knows! Somebody can tell!

What "influence" separated William M. Ivins from his prey when he had all the Ryan rascality pretty well located? He was ready and willing to go on. Chairman William R. Willcox should take the public into his confidence and fully expose the sinister forces that are blocking subway progress. The People have a right to know who is responsible for existing conditions.

Meanwhile, watch the race track bribery inquiry and note carefully who raised and handled this fund, created to deal in the souls of men!
